TERRA OLIVIA

This earthy colour is a great choice for rustic or natural settings, as well as bohemian decors. It is popular in terrestrial or terrene areas, and also as flooring for enclosed porches. Warmer than other colors, it is also perfect for home earth tone decor.

TERRA BLU

In its natural state, terracotta is a lovely mix of red and earthen hues, which washes in swooping clouds of colour creating unique yet subdued images across the surface. They can be used in multiple indoor and outdoor applications to give a raw and rustic aesthetic.

Terracotta tends to have an old world charm that can be swept across a room when it is used as flooring. The material has a rough, rustic feel to it, which is both rugged and subdued all at once with a beautiful aqua colour stud which provides a consistent and subtle look for earthen decor and interiors.
