Creanza epitomizes consumer-first approach with an enduring combination of innovation, unique variety and quality. Since its inception in 2011, Creanza tiles, based at Morbi in Gujarat, is one of the pioneer and dominant manufacturers - exporters of premium glazed vitrified tiles. Creanza has state-of-the-art manufacturing facility with latest technology machinery imported from Italy, Spain and China. At Creanza, we believe in providing superior quality and service, further strengthening our relationship with consumers.

In lieu with an increasing demand of vitrified tiles, we have an installed capacity of 15000 sq.m./day of GVT and PGVT tiles spread across a humongous 14 acres land. We have collaborated with the largest Italian conglomerate, Sacmi for its press technology and installed Creta digital printing machine which helps us yield innovative tiles with stunning designs and excellent quality. We constantly emphasize on new product development in order to cater to the dynamic and unique taste of our consumers.

1. First spread the cement mixer onto the floor substrate

6. Tap the slab with a rubber trowel for a complete fixing, ensuring the air is expelled.
It is recommended to start from the centre of the slabs and then move towards the edges.
7. Complete the laying operations using a suitable sealant, while keeping at least a 3mm joint through the use of spacers
