

Featured Product: Magnaflow®
with H₂Okinetic™ Technology

We believe in the power of water.

Each day, we study the ways in which people interact with water. We learn from our observations. And then, we innovate.

Working in tandem, our engineers and designers merge new technologies with equally novel product designs. We ensure durability, by testing our products again and again—backing them with comprehensive warranties, and a wide selection of repair and replacement parts. And every step of the way, we focus on sustainability.

By constantly crafting bold styles and revolutionary technologies, we are creating a better way to experience water.

A global brand with a focus on innovation.

Our distinctive blend of brand, service and innovation has led to international success. Around the world, our faucets and accessories are produced, sold, distributed—and selected—for use in the finest, most innovative projects, to create an experience like no other.

50s

Alex Manoogian developed the first successful single-handle washerless ball valve faucet.

60s

Expanded single-handle line to bath and showers.

TRUMP OCEAN CLUB INT. PANAMA

TIANJIN SHERATON HOTEL, CHINA

**"I don't like callbacks,
That's why I use Delta."**

70s

First to advertise to plumbers and consumers.

90s

Finishes expanded to include Brilliance® Anti-Tarnish Finish.

In2ition® Showers deliver water where you need it the most.

10s

Touch2O® Technology is the first to allow you to touch a faucet on and off.

80s

The first pull-out faucet introduced.

00s

H2Okinetic™ Technology changes the way water moves—and feels.

CITY CENTER, Las Vegas, USA

VENETIAN, Macau

STADIUM ARENA DAS DUNES, Natal, BRAZIL

RITZ CARLTON, THE RESERVE RESORT UBUD, Bali, INDONESIA

A man is shown from the back, showering in a modern bathroom. He is holding a handheld showerhead in his right hand, and a large rain showerhead is positioned above him, spraying water. The background is a dark, textured wall. The overall mood is clean and refreshing.

Experience Innovation In Your Daily Life

Delta® Faucet was founded on innovation. And we've been re-founded on innovation each day since. Our products for the bathroom and kitchen explore new avenues in design and technology, helping you clean, refresh, and relax yourself any way you like.

Touch2O.xt™ Technology

Touch it on. Touch it off. Or go completely hands-free. The choice is yours. Touch2O.xt Technology gives you the freedom to choose how you interact with your faucet. It also helps you keep your faucet clean—even when your hands are messy—and reduces water consumption.

H2Okinetic™ Showers

H2Okinetic™ technology uses highly engineered chambers to create a unique wave pattern that offers the feeling of more water without using more water. The oscillating pattern clears away mineral deposits making H2Okinetic™ a self-cleaning technology especially suited to hard water.

In2ition® - Two-in-One Shower

The In2ition shower features a detachable handshower, which can run separately from or simultaneously with the showerhead with both applications fed by a single shower arm – two showers in one beautifully convenient package.

Temp2O™ Showerhead and Handshower

Take the guess work out before you get into the shower. Temp2O's LED display shows the water temperature in degrees Celsius and also indicates temperature range through a color changing display. It is powered by running water and requires no batteries or electrical connections. 6 different spray settings offer you a variety of showering experiences.

HydraChoice™ Body Sprays

Delta HydraChoice Body Sprays are built to make your customized dream shower a reality for the whole family. With 50° of adjustability in any direction, the pop-out body sprays can be angled to suit everyone, from the tallest in the household to the shortest. Featuring H2Okinetic™ technology and designed with an easy-to-remove spray head, HydraChoice body sprays give you the freedom to change the style, spray pattern and pressure.

ShieldSpray™ Technology (Details on Page 125)

MagnaTite® Docking (Details on Page 125)

DIAMOND™ Seal Technology (Details on Page 13)

How to find smart features

As you read this catalog, look for these simple icons, which make it easy to identify any product's technological features.

 = DIAMOND™ Seal Technology

 = MultiChoice® Universal

 = DIAMOND™ Valve

 = MultiFlow™ Technology

 = Flexible Flow Spout

 = Swivel Aerator

 = InnoFlex® PEX Waterways

 = Touch2O® Technology

 = MagnaTite® Docking

 = Touch2O_{xt}® Technology

= ShieldSpray™ Technology

= Water-Efficient Product

Kitchen Faucets: flow rate of 5.7 l/min. or 6.8 l/min. versus Industry Standard ASME A112.18.1/CSA B125.1 of 8.3 l/min.

Lavatory Faucets: flow rate of 5.7 l/min. versus Industry Standard ASME A112.18.1/CSA B125.1 of 8.3 l/min.

Showerheads and Handshowers: flow rate of 5.7 l/min. or 7.6 l/min. versus Industry Standard ASME A112.18.1/CSA B125.1 of 9.5 l/min.

-----------	-----

We use water to create a retreat.

We believe that all bathrooms should offer a calming refuge from the chaotic world outside. Since our company was founded, we've steadily created innovations—in style, and in technology—capable of transforming any lavatory into a calming, revitalizing blend of form and function.

Experience Innovation in the Bath.

From the beginning, the Delta Faucet Company commitment to innovation has created and refined truly groundbreaking technologies, that ease and simplify the daily lives of their users.

TOUCH2O.XT[®] TECHNOLOGY

Touch it on. Touch it off. Or go completely hands free.

Tap anywhere on the faucet handle, spout or body to start the water flow. Tap again to turn the flow off. If you want to go hands free, just bring your hand within 4 inches of any part of the faucet and the water turns on automatically. It then turns off within a few seconds after your hand is withdrawn. Perfectly convenient and water saving at the same time, especially for water-repetitive tasks.

DIAMOND[™] SEAL TECHNOLOGY

Reliability that lasts a lifetime.

When you combine our tough, DIAMOND[™] Valve with InnoFlex[®] PEX waterways, you get our patented DIAMOND Seal Technology. Delta[®] faucets featuring DIAMOND[™] Seal Technology are built to last a lifetime.

Our patented DIAMOND[™] Valve uses an artificial diamond coated disc to deliver incredible durability that lasts up to 5 million cycles - 10 times the global industry standard.*

Leak-Free.

Our DIAMOND[™] Valve features no dynamic seals and reduces the chance of leaks to near zero.

Longer Lasting.

Our patented DIAMOND[™] valve is engineered to last up to five million uses.

* Industry standard based on ASME A112.18.1 of 500,000 cycles.

Lead-Free.

Once inside the faucet, water only passes through PEX waterways and hence, does not come into contact with potential lead contaminants in the metal.

Less Hassle.

Includes a minimum of 32 inches of waterways, which saves the cost of additional supply lines.

SWIVEL AERATOR

Water where you need it.

Our Swivel Aerators allow you to redirect the water flow up to 12° in any direction allowing you to select the most suitable flow angle for your need.

PIVOTAL™ BATH COLLECTION

The confident slant of the Pivotal™ Bath Collection makes it a striking addition to a bathroom's contemporary geometry for a look that makes a statement.

EXPERIENCE INNOVATION IN THE SHOWER.

H2Okinetic™ Showers

Delta H2Okinetic™ Technology sculpts water into a unique wave pattern that delivers more warmth, intensity, and coverage—while using less water than a standard shower.

In2ition® Two-in-One Shower

The In2ition Shower features a detachable handshower, which can run separately from or simultaneously with the showerhead, giving you the warmth and flexibility of two streams of water at once.

HydraChoice™ Body Spray System

Experience the next generation custom showering.

The body sprays don't pop out until you pop in the shower. They're part of our HydraChoice™ Body Spray System, which lets you adjust the angle of the spray by 50° in any direction. This adjustability lets you customize your shower experience for exactly where you want it.

Temp₂O® Technology

Take the guesswork out before you get in.

Showerheads equipped with our Temp₂O technology help you avoid surprises, by letting you know the temperature of your water before you (or your family members) get into it. Built-in indicators change color from blue, to magenta, to red—letting users know at a glance when the water is safe and comfortable.

We're changing the shape of water.

There are few experiences more personal than a shower. And Delta® offers you a range of showerhead and handshower spray patterns, to help you create a more customized showering experience. To identify spray settings on products in the bath and shower sections, look for the icons and their spray patterns visualized here.

Adjustable Full Body Spray (AF)

Adjust the water flow for a harder or softer spray.

AF

Adjustable H₂Okinetic™ Spray (AH₂O)

Allows for full flow or water-efficient spray.

AH₂O

Full Spray with Massage (FSM)

Consistent pressure from outside spray holes, plus soothing, pulsating spray.

FSM

Cascade Flow (CAS)

Gentle cascading streams of water.

CAS

Shampoo Rinsing Spray (SR)

Strong, full body spray.

Shampoo Rinsing with Massage (SRM)

Strong, full body spray plus a pulsating spray.

Slow Massage (SM)

Soothing, pulsating spray.

Soft Drench Spray (SD)

Soft, aerated, soaking flow of water.

Crossing Full Spray (CF)

Consistent pressure from all spray holes with crossing streams for more coverage.

Crossing Full Spray with Massage (CFM)

Coverage of crossing full spray with addition of a soothing, pulsating spray.

Fast Massage (FM)

Strong, pulsating spray.

Full Body Spray (FB)

Consistent pressure from all spray holes.

H2OkinetiC™ Spray (H2O)

Large drops and dense, wide spray pattern create a blanket of water.

H2OkinetiC™ Spray with Massage (H2OM)

Large drops and dense spray pattern, plus a pulsating spray.

Massage Spray (M)

Soothing, pulsating spray.

Pause (P)

Reduces water flow to a trickle.

Soft Drench with Full Spray (SDF)

Soft, aerated, soaking flow of water with additional sprays to provide fuller coverage.

Soft Drench with Massage (SDM)

Drenching full spray plus a pulsating spray.

Soft Full Spray (SF)

Soft, consistent pressure from all spray holes.

Soft Rain Spray (SRS)

Gentle fall of water that feels like a soft, spring rain.

Custom Showers

When you create a custom Delta® shower, you're fashioning an experience all your own, that gives you precisely the indulgence you want.

DEFINING YOUR VISION

As you begin to plan your custom shower, consider the following:

- Do you want an exhilarating experience to start your day? Or relaxation at the end of a stressful day?
- Who will use your shower? Only adults, or children as well?
- Do you want an enclosure? Or a combination of full and half walls?
- What is your budget?
- Do you want a minor update, or a complete renovation?

CONSIDERING COMPONENTS

Different kinds of components offer different experiences—and different combinations.

Showerheads:

Experience sensations from falling rain to invigorating, full-body coverage.

Handshowers:

Directing water where you need it can make everyday tasks easier, whether you're bathing your kids, shaving your legs, or washing your dog.

Body sprays:

Be enveloped by water, by placing direct, massaging sprays on one or more walls.

Note: The more outlets (showerheads, In2ition® Showers, body sprays or handshowers) you have in your shower, the greater the amount of water pulled through your valve. If you have too many, the spray may be softer, and have less pressure.

CUSTOMIZE YOUR SHOWER EXPERIENCE

TempAssure® Thermostatic Custom Shower System

If you want to transform your bath with a rejuvenating, spa-like shower customized to your preferences, you may prefer a Custom Shower.

- Select up to four body sprays in addition to a handshower, In2ition Shower or additional showerhead.

MAGNAFLOW®

Built around Delta's proprietary H₂Okinetic™ Technology, the most immersive rain shower and the deluge of specially designed cascade flows, MagnaFlow® offers unique and pure water experiences - no lights, sound, air mixing or any other gimmick!

What's more, a robust design with no moving parts ensures better reliability even in tough water conditions.

PURE INDULGENCE

Inspired by the various moods of nature. A world where the delicate swathe of water engulfs you, pulling you into an ethereal space

Cascade Flow

Experience the deluge of gently cascading streams of water, which stimulate your senses and revive that powerful spirit within you.

H2Okinetic™ Technology

Discover a showering experience unlike any other. Delta's proprietary H2Okinetic™ Technology offers more coverage and more intensity without using more water.

Rain Shower

Experience the sensation of gentle summer rain, where larger, fuller droplets surround you, immersing your body, mind and soul.

Rain and H2Okinetic™

Explore the unique combination of rain shower and H2Okinetic™ Technology working in sync. The interplay of intense and soothing sprays delivers an experience that is every bit as exhilarating as it is relaxing.

**We build faucets
around their uses.**

**And more importantly,
around their users.**

For years, we've studied the ways people interact with their faucets; identifying unmet needs along the way. The lessons we've learned have helped us create revolutionary technological innovations—transforming kitchen faucets from simple valves into something more like skilled assistants.

We don't just fill pots. We fill needs.

Whether we're designing a new product style or a new technology, our goal is the same, to make a real difference in the lives of those who welcome us into their kitchens.

FLEXIBLE FLOW SPOUT

Water where you need it.

Our flexible spout tips offer adjustability of water flow in any direction – up to 40° for kitchen faucets. Now, you can direct the water flow to exactly where you need it

TOUCH₂O[®] TECHNOLOGY

Touch it on. Touch it off.

Touch₂O Technology lets users start water flowing with a light tap anywhere on the spout or handle. It's a technology that gives you more convenience, while using less water.

SHIELDSPRAY[™] TECHNOLOGY

Power off the mess without making a mess.

A concentrated jet cleans with laser-like precision and powers away stubborn messes while a rotating protective shield of water contains splatter - up to an average of 90% less splatter than a standard spray. So you can spend less time soaking, scrubbing and shirt swapping.

MAGNATITE[®] DOCKING

Keeps pull-down spray wands securely in place.

The spray wand comes free with a gentle tug, giving total flexibility. The hose extends and retracts without friction points, fed by gravity. When the wand is docked, a powerful magnet embedded in the spout pulls the wand precisely into place. Unlike other pull-downs that droop over time, MagnaTite docking keeps your faucet looking picture-perfect.

MULTI-FLOW[™] TECHNOLOGY

Flow faster. Fill faster.

With a simple touch of the toggle, Multi-Flow Technology lets you increase the stream of water from the standard 5.7 lpm to a higher flow—letting you fill sinks, pots, vases and other containers more quickly.

FUSE™ KITCHEN COLLECTION

FUSE™

Blending soft contemporary lines and bold color choices with such innovations as DIAMOND™ Seal Technology and MagnaTite® Docking, Fuse freshens both your kitchen's style, and its substance.

Flexible Flow Spout

Water where you need it the most. Our flexible spout tips offer adjustability of water flow up to 40° in any direction. Now, you can direct the water flow to exactly where you need it.

The innovation doesn't end here.
