Le Forme is a collection that brings a dramatic theme to your space. Forever the domain of clean linear lines this collection introduces the geometry of circles within circles that appear as ceramic grooves on the elements. A fresh new personality emerges as the grooves mimic an organic form sculpted in ceramic. Your bath space gets a stunning luxurious centerpiece and the power of design prevails.

Courbe is French for 'curve'. And the radical curve is what defines the various elements of this stunning collection. It is a dramatic turn in your bath space. The otherwise placid surroundings highlighted by this sudden artistic distortion of form. We are bending the rules of indulgence with this one and Queo is creating never-before spaces with the F-Courbe, creating luxury in a new light.

MRP. ₹ 2,43,000

Geometric planes intersect at aesthetically pleasing angles to bring alive the angularity that symbolizes modern design. The series takes its name from its distinctive feature, the inclination. Protruding directly from the wall at an angle of 138°, the F- Morwen series can be characterized by the square shapes, rounded corners and thin profile lines that alter the perception of space while maintaining reduced dimensions. It is the perfect choice for those who have a taste for neo-modernist designs.

Minimalism is the key behind these simple yet elegant designs. The soft shapes and thin lines are perfect for all spaces. High quality materials and superior craftsmanship create an eclectic array of bathware. Square and smooth designs give life to innovative forms that take you back to an elegant past while giving you a glimpse of the future.

The F-Novella series of luxury bathware from Queo, designed by Romano Adolini, is an exercise in the minimalist tradition of seeing less but getting more. The belief that luxury is a matter of taste, is brought to life with his progressive designs in this series. As the hitherto unseen aspects of Queo's design philosophy are explored, basic shapes are used to create a playful yet sophisticated design. The series delights the user with its aesthetic elegance and nuanced usability.

Rimfree Technology

The fiords of scandinavia inspired by Paolo Zani to create masterpieces of F-fiordo. The water flow mimics the meandering waters of the fiords. This creates a beautiful amalgamation of geometry with geology, the minimal with the indulgent. In every piece of this collection the simplicity of nature meets minimalistic modernity.

Backed by research in color therapy, Queo introduces F-Clair, a range of bath/shower and basin mixers. The mixers emit light with the water flow; the color of the light is determined by the water temperature. Colors are known to have therapeutic benefits like restoring physical and mental balance; their intelligent use makes the time spent in the bathroom a refreshing experience. Careful isolation of electrical connections ensures complete safety. Queo combines its sleek designs with safe and sustainable technology to make the personal space colorful and rejuvenating.
